

Draw a special  
person in this  
rainbow circle:

YOU!

Sara

Hang a crystal in a sunny window and see the rainbows made by the sunlight.

Position yourself so the rainbows shine on your nose, cheeks, teeth (rainbow teeth!) ears, elbows, toes, hair, wherever you like. Hold a rainbow in the palm of your hand. How does it feel there?

Do colors contribute to the ways you choose to feel? Do you have a favorite color?
